- Total pension contributions by month
- Total pension contributions by year
- Pension Contributions by bank
- Monthly payments to Insurance Companies, MASA etc.
- Total pension benefits by month
- Total pension benefits by year
- Retirement by year

REQUESTED SPECIFICATIONS

- ❖ Each contributor and pensioner must have a unique identifier/ID # e.g. the 1st letter in first, middle, and last name plus a sequential number
- ❖ Each employer must have a unique identifier
- ❖ All dates must be in MM/DD/YY format once possible
- ❖ A 'Comments' hyperlink or section for each Contributor and Pensioner to store any additional information
- ❖ An adjusted hire date and employer in the event a contributor is transferred from one Employer to another within the Pension Scheme. e.g. from Government to Financial Services Commission **OR the system can have a Multi-Employer feature which allows the user to store monthly contributions under separate employers. The hire date must be adjusted. Further, since the Police Officers pensions are calculated differently, if a contributor leaves Government and enter Police, this feature will be useful for calculation of benefits under both employers.**
- ❖ Pop-up notifications:
 - 3 months before contributor's retirement date
 - 3 months before dependent child attains 18 years (Public service) and 19 years (Police)
- ❖ Embed System Pension Calculator
- ❖ PSPF to give specific yearly statements to contributors showing contributions received for the year along with present total contributions in account.
 - System generated statements for active contributors (current year break-down with summary of past years)
 - System generated statements for active pensioners (current year break-down with summary of past years)
- ❖ PSPF to print checks
- ❖ Embed & print all PSPF office forms
- ❖ Audit trail to track who enters or edits information
- ❖ Export reports to common data formats such as Word, Excel, PDF etc.
